Crown Molding & Trim Install It Like A Pro: Wayne Drake ...
The hardest part of installing crown molding is cutting the corners. You can’t do it like any other trim pieces because the molding sits at an angle between the wall and the ceiling (Image 1). Using a coping saw (Image 2) is the easiest way to cut the corners because a coped joint is tighter than a mitered joint.

Installing Trim? 6 Things to Know Before You Start - Bob Vila
